

The New Jersey Economic Development Authority (EDA) is an independent State agency that serves as the State's "bank for business" by financing small and mid-sized businesses, administering tax incentives to retain and grow jobs, revitalizing communities through redevelopment initiatives, and supporting entrepreneurial development by providing access to training and mentoring programs.

In addition, EDA offers real estate development assistance and state-of-the-art technology facilities like the Technology Centre of New Jersey in North Brunswick.

The Commercialization Center for Innovative Technologies (CCIT) is the leading incubator in the region dedicated to life sciences and biotechnology companies. And here's why...

Specialized Facility

CCIT is a 46,000 square-foot facility offering the most wet lab space in the State for incubation. Tenants benefit from up to 6,000 square feet of customizable office, production, and "plug in ready" laboratory space.

Value Added Services

CCIT's working relationships with local organizations and global bioscience research parks provide tenants with unique opportunities for collaborations and market entry assistance. The CCIT network also offers a variety of discounted professional services.

Strategic Location

CCIT is located in the heart of New Jersey's "Bioscience Cluster" on the campus of The Technology Centre of New Jersey, which offers easy access to both New York City and Philadelphia, as well as close proximity to Rutgers University and the University of Medicine and Dentistry of New Jersey (UMDNJ).

Prestigious Awards

CCIT is one of a small number of incubators in the world to have been awarded the Soft Landings International Incubator designation three consecutive times from the National Business Incubation Association.

Business Development Services and Financial Benefits

A team of experienced staff and stable of industry-focused consultants works closely with CCIT tenants to provide them with a variety of advocacy services, including:

- Match-making efforts to connect tenants to new opportunities through strategic alliances and global business networks.
- Focused content seminars aimed to help tenants grow their bioscience business model, along with leadership and business development training.
- Corporate technology transfer program whereby CCIT works closely with major corporations to identify strategically valuable emerging life science and technology companies, resulting in business opportunities.
- Access to enhanced State incentives that support biosciences in the Greater New Brunswick Edison Innovation Zone, including:
 - o A program allowing businesses to sell off net-operating losses and unused R&D credits.
 - o Job creation grants based upon state income tax withholdings generated by new jobs.
- Access to capital through EDA's lending programs, including the:
 - o Edison Innovation Angel Growth Fund (www.njeda.com/AngelGrowthFund)
 - o Edison Innovation VC Growth Fund (www.njeda.com/VCGrowthFund)

CCIT Graduates

Below is a sampling of some of the companies that have graduated from the Commercialization Center for Innovation Technologies (CCIT).

"The passion, commitment and competence of each and every employee at Amicus is the foundation of our success. The great success that Amicus has become was also made possible by the State's programs and assistance in our early days as a startup company."

-Amicus Therapeutics Chairman/CEO John Crowley

"We have grown from a start-up bioscience company to a robust R&D organization tackling some of the most challenging drug targets. State-of-the-art lab facilities provided through the EDA further enhances our ability to address serious illnesses through our research efforts."

- Chromocell CEO Christian Kopfli

"We are very appreciative of the support we received during our time at CCIT. We benefited not only from the 'hardware' – the facilities and services – but from the 'software' as well, especially referrals to excellent advisors."

- GENEWIZ CEO Steve Sun
